Examiner's Detailed Office Action

1. This Office is responsive to the communication for application 09/881,746, filed September, 19, 2005.
2. Claims 6, 15, and 16 have been canceled.
3. Claims 1-5, 7-14, and 17-23 have been examined.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-5, 7-14, and 17-23 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims are considered to be directed to an algorithm or software or a computer program that does not meet the standard set forth in the State Street Bank case of being tangible, useful, and concrete. In this instance the claims are not considered to be tangible since no real world result is provided. A computer-implemented system or method “operative to recognize objects in content...” or “for adding a new expert to a blackboard” does not produce a real world result that is tangible and concrete. In the first case, the mere recognition of objects within data (content) does not, in itself, make any change in the real world. In the second case, adding an expert to a blackboard is an operation performed on data

abstractions. Again, this operation, in itself, makes no change or produces anything tangible in the real world

Response to Arguments

4. Applicant's argument filed September, 19, 2005, with respect to 101 rejection for claims 1-5, 7-14, and 17-23, has been fully considered but is not persuasive. The invention embodiments set forth in claims 1-5, 7-14, and 17-23 may be computer-implemented, but they do not produce a tangible real-world result as object recognition within data and the manipulation of 'experts' are abstract operations on data abstractions that have not been shown to entail the production of real-world results. The 101 rejection of claims 1-5, 7-14, and 17-23 is maintained.

5. Applicant's argument, see communication for application 09/881,746, filed September, 19, 2005, with respect to 103 rejection, has been fully considered and is persuasive. The 103 rejection of claims 1-5, 7-14, and 17-23 has been withdrawn.

Conclusion

9. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened

Art Unit: 2121

statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
